FRIDAY EVENING, APRIL 11.

FISH CULTURE IN GEORGIA.—Mr Seth Green, the famous fish breeder, has, we learn, commenced his work in the South. The first trial of his useful and scientific experiments in that section will be made in the Savannah river. The Augusta (Ga.) Chronicle of Sunday says: "We understand that a gentleman, is now in Augusta with the special purpose of visiting our shad fisheries in the neighborhood, with a view to institute the operation of a process by which the annually decreasing natural product of this delicious fish in the Savannah river will be arrested by artificial means. He yesterday visited the fishery of Mr. Jackson Powell, at Sand Bar Ferry, in company with that gentleman, in order to make a preliminary examination. Of the details of the proposed process we are not familiar, but understand that the leading feature is to make immediately productive the eggs of the fish when caught, by which, in a brief space of time militons may be hatched, which are annually lost to the natural product, returning the next season in swarms of fine fat, fully-developed shad, to reward the labors of the fisherman and delight the appetites of the masses with the most wholesom and cheap food. We have neither time nor information to pursue the subject further at present, but trust that practical benefit will result from the visit and investigations of the gentleman now visit-

A HAPPY THOUGHT. -Six weeks ago Amasa Tobbit and Jane Griggs, of Tolleston, Ind., were utterly miserable and alone. Both were too old to work, and neither had enough to live on comfortably. They hit upon a happy idea touching social economy, and were married. The woman was eighty-six and the man seventytwo. Their collective age is therefore 158 years, and their united fortune is about \$4,000. The age is a guaranty of established steady habits and constancy of affection, and their property is not enough for their children to quarrel over when they are gone. There seems to be no good reason why they should not be happy yet.

SALE OF VALUABLE VIRGINIA LANDS. By virtue of a decree of the County Court of Loudoun, made in the chancery suit of Hopkins, Hull & Co. vs. Berkley, the undersigned, com-missioners of sale, will offer at public auction, in

missioners of sale, will oner at public adecion, in front of the Court Honse, in Leesburg, Loudoun county, Va., on MONDAY, March 17th, 1873, the following REAL ESTATE, viz:

A VALUABLE TRACT OF TIMBER LAND, containing 408 acres, in Prince William county, adjoining the lands of Edmund Darkeley Evenly Revolutions and others about six Berkeley, Ewell, Bayley and others, about six miles from Thoroughfare station, on the O., A. & M. R. R., and four miles from Aldie, on the Piedmont and Potomac Railroad-over firm roads of easy grade. This land is heavily timbered with chestnut, hickory and oak, and has upon it a vein of rich iron ore, running through

its entire length.
Also the ONE UNDIVIDED HALF of one of the most valuable and productive estates in Virginia, known as "GOOSE POND," lying on the south bank of the Mattaponi river, in Carothe south bank of the Mattspont river, in Caroline county, containing 1950 acres, of which about 950 is timber of original growth, and the rest productive, arable land, under cultivation. The timber consists of the varieties of oak, pine, walnut and hickory, and is considered by good judges equal to any body of timber land in the State. An experienced timber getter estimates the value of the lickory alone, for spokes, at double its assessed value. The pine and cak furnish the finest masts and ship timber. The arable land has heretofore been cultivated by intelligent and liberal agriculturi-ts, and until the war, with extraordinary remunerative results. The estate was somewhat neglected during the war, and the owners have not had the means since of restoring it to its former productiveness. Two hundred acres of this land have been cropped continuously for nearly a century, and will now produce from 50 to 75 bushels of corn to the acre. Mari is abundant on the place, and has been liberally applied. The Mattaponi is a beautiful stream; its navigation was obstructed during the war, but at a slight expense it can be made navigable for vessels of 100 tons to the made navigable for vessels of 100 tons to the landing on the estate. "Goose Pond" adjoins the famous Corbin estate, "The Reeds," and also "Hays," the justly celebrated estate of Major Wm. N. Berkeley, separated from "Goose Pond" only by the Mattaponi river. The other half of "Goose Fond" is held for sale by General Eppa Hunton, of Warrenton, who will units in

the sale of the whole tract.
"HAYS," containing 1650 acres, will be offered for sale at the same time, by B. P. Noland, Trustee, under a deed of trust from Maj. Berkeley. These two escrites forming a compact body of about 3000 acres of splendid land, offer the most desirable location in Virginia for a colony. The attention of capitalists, of agriculturalists and dealers in timber and lumber is invited to these lands. None more desirable, in quality or prices, are now in market.

Terms of Sale: So much of the purchase money to be paid in each on the day of sale as will pay the costs of suit and expenses of sale the residue upon a credit of one, two, three and four years, in equal instalments, bearing interest from the day of sale; the purchaser to execute his bonds for the deferred instalments, and the title to be retained till the purchase money is all MATTHEW HARRISON,

BY AUTHORITY OF A DEED OFTRUST, dated the — day of —, and with the full consent of the present owner, Major W. M. Berkeley, I will offer, at the same time and place, and upon the same terms as the above, that splendid estate, in King William county, known as "HAYS," containing 1650 acres, adjoining "Goose Pond," the Mattaponi river being the dividing line. The timber upon this estate is of the same quality as that on "Goose tate is of the same quality as that on "Goose Pond," and the arable land of the same fertile character. It has been managed since the war better than Goose Pond, and is consequently now in better condition, and produces heavy crops of grain, tobacco and clover. The DWEL-LING HOUSE and out-buildings are complete and in good condition.
